

### LaborNet No. 1134

Construction at the private sector. Authorization to resume activities. Construction workers are excluded from mandatory, preventative, social quarantine in the City of Buenos Aires. Administrative Decision No. 1863/2020 by the Chief of Staff Office.

Dear All,

This is to inform that on October 15, 2020 the reference Administrative Decision was published in the Official Gazette, whereby those who work in construction at the private sector are excluded from mandatory, preventative, social quarantine in the city of Buenos Aires.

They must follow the protocol approved by the national health authority, which is enclosed as Annex II of this rule.

The workers involved should leave home only to go to work on construction sites, an activity that is now allowed under the relaxed lockdown, but cannot use public transportation; they must apply for the Special Permit to leave home – Covid-19 emergency under Administrative Decision No. 897/20.

Employers must ensure safe and healthful working conditions and arrange alternative means of transportation according to local guidelines to protect workers' health.

The necessary regulation is still to be issued by the government in the City of Buenos Aires.

This General Resolution will take effect on the date of publication in the Official Gazette.

Best regards,

Paula Analía Babij
